## **Application for Support – Indonesian Safe House Network**

Posted on 2025/08/22 by [darknights](#)

Many people in Indonesia live under vulnerable conditions – facing social, economic, or personal risks that leave them without a safe place to retreat. In such situations, the presence of a **safe house** can be the only lifeline: a place to survive, to breathe, and to gather strength.

Through the **Indonesian Safe House Network**, we – a small circle of trusted friends working professionally together – are committed to

establishing a **network of safe spaces** across several regions of the archipelago.
